Did you know?

Who are the Abusers?

Estimates are that approximately 60% of abusers are men, 15 to 20% are women and 20 to 40% are men and women acting together. So while men are indeed the majority of sexual abusers, it is dangerous to underestimate the risk that female sexual abusers also pose to children. Among educations, 57.2% of abusers are male and 42.4% of abusers are female.
